

2026-2027 MEMBERSHIP APPLICATION

The Economics Club of Pittsburgh, founded in 1910, is a membership organization comprised of top executive levels of business, industry, and finance. It provides a distinguished public forum for intelligent, timely discussions on regional, national, and international economic matters and their interaction with the social and political environment.

The program each year covers a broad range of topical subjects and meets the wide variety of interests which the membership represents. Nationally and internationally-known speakers are featured at the regular meetings. Question and Answer sessions and open discussions between speakers and members are a feature of the meetings.
